

PRIORITY PRESERVATION INVESTMENT AREAS (PPIAs) ESSENTIAL CRITERIA: SPECIAL RESOURCE AREAS Somerset County, NJ

Notes

1. The composite zone categories are based on work prepared for the County strategic plan in 2007.
2. All zoning files have been reviewed and processed by county staff. Every effort has been made to ensure that this map reflects the most up-to-date municipal base zoning. The composite zones are meant to give a general picture of development patterns within the county. There may be instances where the prescribed zoning is not reflected by the built environment and types of land use therein.
3. Somerset County uses the following map projection and coordinate system when presenting GIS data:
 - Horizontal: North American Datum 1983 (NAD83)
 - Vertical: North American Datum 1987 (NAD87)
 - Coordinate System: New Jersey State Plane Feet
