

This map is for illustration and general information purposes only, and is not suitable for site-specific, regulatory and/or financial decision-making and/or legal commitments. Somerset County does not guarantee this information to be accurate, correct or complete and assumes no responsibility for errors, omissions or misinterpretations, even if Somerset County is advised of the possibility of errors or omissions or the damages resulting there from.

The Existing Wastewater Service Areas shown on this map are based on the Future Wastewater Service Area Map for Somerset County adopted by the New Jersey Department of Environmental Protection (NJDEP) on January 24, 2013 and March 5, 2013. They include site-specific amendments that have been adopted by the NJDEP since that time in accordance with N.J.A.C. 7:15-3.4, 3.5 and 4.4, as well as the consolidation/transfer of assigned sewer service areas implemented pursuant to the adoption of the Montgomery Township-Rocky Hill Borough Component of the Somerset County Wastewater Management Plan on November 4, 2019. As such, this map, which reflects current conditions, supersedes Map 3.1 - Existing Wastewater Service Areas included in the Montgomery Township and Rocky Hill WMP Component.

All sewer service areas associated with NJPDES-regulated Discharge to Surface Water (DSW) or Discharge to Groundwater (DGW) wastewater treatment facilities are designated as "Assigned Sewer Service Areas". All lands not within an "Assigned Sewer Service Area" are included in the general wastewater service area for facilities with planning flows of 2,000 gallons per day (GPD) or less that discharge to groundwater designated as "Non-Sewer Service Area" represented by the white areas on the map. There are no "Unassigned Sewer Service Areas" as defined at N.J.A.C.-1.5 located in Somerset County.

The locations of WWTFs and associated discharge outfalls/points are approximate.

The following permitted WWTFs will be decommissioned sometime in the future: Royce Brook Golf Club (NJ0103322), Johnson & Johnson (NJ0026140), JER Herring Orchard LLC (NJG0069060) and Pavilions at Princeton (NJG0129038) and the affected sites have been included in the assigned sewer service areas associated with WWTFs discharging to surface water.

Legend

- Wastewater Treatment Facility
- Surface Water Discharge Outfall
- Groundwater Discharge Point
- Interstate Highway
- US Highway
- State Highway
- County Route
- Stream
- Waterbody
- County Boundary
- Municipal Boundary
- Parcel Boundary
- Existing Wastewater Service Areas - To Be Decommissioned in the Future
- Existing Assigned Sewer Service Areas For Facilities Discharging to Ground Water (DGW)
- Existing Assigned Sewer Service Areas for Facilities Discharging to Surface Water (DSW)*, **

* EWSA facilities discharging to surface water are represented with a solid 'brown' outline and various shades of 'brown' differentiating the facilities.
 ** The permit for Johnson & Johnson (NJ0026140) addresses both groundwater and surface water discharges. The Warren Stage IV (GWD #) and Stage V (GWD #) WWTFs have both DSW and DGW permits.
