FRIDAY

NOVEMBER 22, 2024

10:00 AM – 12:00 PM (2 HOURS)

A study by the organization, More in Common, shows that 80% of Americans believe “political correctness is a problem in our country.” Many people feel cynical about what they feel are the excesses of “wokeness” and “cancel culture.” Bias incidents are on the rise in many communities, and talking about issues related to diversity is more important than ever. In this training, participants will explore current research on inclusive language and why it is an important part of dismantling bias. Through interactive exercises, participants will unpack current terminology related to diversity, equity, and inclusion, and practice strategies for using the “language of diversity” in ways that promote understanding rather than division.

Open to anyone who support youth, students or families.
